

iPad Bundle Requirement

Alpha School is a 'Bring Your Own Device' (BYOD) school. Innovative and superior integration of technology is integral to the school's vision. All students, from FS2 to Year 6, are required to purchase an iPad. Our vendor is JTRS.

The benefits of Alpha's 1:1 iPad program are numerous. The programme:

- Informs and involves parents and provides a real-time, interactive window into their child's learning
- Places the learning in the hands of the student; promoting continuation, extension and application of learning anywhere, anytime
- Enables the development of life-long learning skills
- Provides accessibility to people, places and experiences otherwise unimaginable
- Provides personal choice in how students access, organise, apply and present learning

Additionally, your child's iPad will be enrolled into a Mobile Device Management programme (MDM). This means that we will be able to help your child manage the device while they are at school with regards to pushing and removing bulk-purchased apps, security and content.

JTRS is an IT solutions company and Alpha's-provider. They will manage the sale, delivery and set-up of the device in your child's name, under the school's MDM. Please note that all iPads **must** be purchased direct from JTRS.

At this time of year, Apple stocks are in very high demand, therefore, in order to **ensure delivery for the start of the school year, it is imperative you order immediately**. Please see below for further clarification and instructions on how to order.

During the parent orientation meet and greet, a member of staff will be available to assist with any questions pertaining to the usage of the iPads.

Should you require any additional information about the BOYD program please contact the IT Department: admissions@alphaschool.ae.

Who is JTRS?

- JTRS are Apple Solutions Expert in Education.
- They are our MDM (Mobile Device Manager) providers.
- They are based in Dubai and have over 10 years experience in the UK supporting education and businesses.
- JTRS will help to ensure we keep both your child and their iPad safe.
- Being an Apple authorised service centre the iPads will be collected onsite through the school, repaired, delivered and enrolled back to school Management system.

How much will the iPad bundle cost and what will it include?

The total cost of the iPad bundle is 2,160.00 AED. Your iPad bundle will include the following:

- Latest model 128GB Wifi 9.7 inch iPad
- Apple iPad Charger
- JTRS 3-year extended warranty plan - Next day collect, repair and return to school site (not including physical damage)
- Nutkase protective cover in choice of 8 colours with Alpha school embossed logo
- Enrolment in the MDM
- Bundle of educational applications for learning as selected by school (to be promoted throughout the year)

Who will own the iPad?

- You are purchasing the latest 128GB Apple iPad with charger, cover and a 3-year warranty, so you own everything.

We already own an iPad; can we send it to school?

- At this time we are not able to accommodate iPads purchased from other suppliers.

Will it come home every day?

- FS2 to Year 2 iPads will remain safely locked away in our charging trolleys at school and will come home for certain tasks.
- Years 3 and above will be responsible for their iPads going to and from school daily, and it will be an expectation that iPads are brought in fully charged every day.

Can I have control of the iPad while is at home?

- When at home, the iPad will retain the same security and settings that they have in school; keeping the device maintained, safe and secure. No changes to the device will be possible in or out of school unless administered by the Alpha IT team.
- The enrolment of the device onto the MDM, will enable certain security restrictions on the device.

When under school Wi-Fi and our firewall, the school's web filter system will block certain websites whilst the MDM controls App and management. This allows teachers to view and manage the use of all their students' iPads from their own. The MDM will also assist in safety against loss by enabling remote wipe, lockdown and also to locate the devices if lost.

When will I need to replace my iPad and bundle?

- It is proposed that you will have to replace your iPad every three (3) years due to the technological advancements by Apple and in order for your iPad to function optimally with the Alpha School's infrastructure.

How you can purchase 'The Alpha iPad Bundle?'
